MindSpaceFX (CMS) based on:

- MiniCMS.eu — <http://minicms.eu>
- Innova Studio Web Editor — <http://www.innovastudio.com>

What it is:

- Low cost: \$60 for basic CMS WebEditor, \$99 with PHP templates
- Extensible, client friendly website editor
- Great for small- to mid-sized companies and organizations
- Easy to install, setup and develop on Apache/Linux/MySQL
- Great for one site-wide template or unlimited templates.
- Great Mod Rewrite URL functionality

What it is not:

- Not for Blogging/RSS/Atom Feeds
- Not great for multi-author workflows, (larger organizations)
- No site memberships or user groups

Site Install (File Structure)

*** Requires a MySQL database to complete install**
